PROFESSIONAL SUMMARY

Programmer Analyst focused on full stack development. I build end-to-end web applications with C# (.NET), JavaScript, React.js and Next.js on SQL Server databases, applying MVC architecture, SOLID principles and REST APIs. I work across both frontend and backend, with a focus on performance and user experience.

My background in Quality Assurance gives me an edge as a developer: I write code with testing in mind, anticipating where it can fail, which results in more robust products. I adapt quickly to agile environments and work collaboratively.

TECHNICAL SKILLS

Languages: C# (.NET), JavaScript, Java, PHP

Frontend: React.js, Next.js, Tailwind CSS

Backend & Architecture: MVC architecture, SOLID principles, REST APIs

Databases: SQL Server (design, queries, optimization)

Tools: Git, GitHub, XAMPP, Visual Studio, VS Code

Testing (QA): Selenium WebDriver, XUnit, functional and regression testing

PROFESSIONAL EXPERIENCE

QA Tester — MSA (Magic Software Argentina)

January 2026 – June 2026 · Seasonal contract (temporary)

- Ensured operational excellence and reliability across delivered systems.
- Validated individual components and the integration of complex programs.
- Guaranteed each release met the security and functionality standards required by the company and its clients.

KEY PROJECTS

Rutas del Sabor: Restaurant management system built with Next.js and Tailwind CSS, focused on user experience and performance.

Hotel Reservation Management System: Complete application in C# (.NET) implementing MVC architecture, SOLID principles and a SQL Server database.

Mobile Management: Responsive web application in React.js integrating REST services and consuming APIs.

Electroventas: Management system developed in PHP, focused on business logic and session handling.

Test Automation Suite (Selenium – C#/.NET): Automated testing framework built with Selenium WebDriver and XUnit, applying the Page Object Model pattern over CRUD operations running in parallel on Chrome and Edge.

EDUCATION

Programmer Analyst — Instituto Tecnológico CTC Rosario
